📄 PROFILE

Motivated Computer Science student with a solid foundation in Python and web development technologies. Strong problem-solving skills with hands-on experience building academic and personal projects. Quick to adapt to new tools, eager to learn best coding practices, and enthusiastic about contributing to software development, debugging, and feature implementation in a collaborative environment.

🎓 EDUCATION

Viswajyothi College of Engineering <i>Btech CSD</i>	7.6 CGPA	2022 – 2026 Vazhakulam
FJMHSS PUTHUPPADY <i>Higher Secondary Education</i>	86%	2020 – 2022 Puthuppady
Guardian Angel EMHSS <i>High School</i>	100%	2014 – 2020 Mannoor

🧠 SKILLS

Programming: JavaScript, Python, C#, C, Java
Web Development: HTML, CSS
Databases: MongoDB
Software Engineering: OOP, Data Structures
Tools & Platforms: Git, GitHub, VS Code, Unity, Antigravity

📁 ACADEMIC PROJECTS

Animal Intrusion Detection Using Python and pretrained models like YOLO used to identify animal intrusion in habitable areas	2024 – 2025
Crop Disease Detection System Used to identify various diseases in leafs and crops through image processing	2024 – 2025

📜 CERTIFICATES

Python for Data Science(2025) Completed the Python for Data Science course on Cognitive class, gaining hands-on experience in data analysis, visualization, and basic machine learning concepts.
